Alessandro Corradini

has successfully completed the online, non-credit Specialization

Architecting Hybrid Cloud Infrastructure with Anthos

This specialization is intended for technical engineers, architects, and administrators using Google Cloud Platform (GCP) to create, integrate, or modernize solutions. You will learn modernizing, managing, and observing microservices-based applications that span multiple clusters in GCP, on-premises, or other cloud providers.

Google Cloud Training

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
